

Electrical Request

Please complete this worksheet to request electrical access during the festival. Food Vendors are given priority regarding electrical needs. Requests for electricity will be determined based on proposed use and availability. Booths granted electricity will be placed in the parking lot area. The final determination of electrical use by vendors is at the sole discretion of the Mt. Si Festival Committee.

Proposed Electrical Needs:

Please provide a description of how electricity will be used in your booth. Is electricity an integral part in selling your goods?

Electrical needs:

Vendors must provide their own commercial grade power strips and extension cords to access power, 100ft. extension cord is recommended. Vendors must also provide a way to secure extension cords so they do not pose a tripping hazard.

Outlet(s) needed	Description
# _____	20 amp 120V NEMA 5-20R
# _____	30 amp 125/250V NEMA 14-30R
